

**Nr. 48, March 2019**

**Students**

From the year 2003 till now we have sponsored 112 students. Of those students 40% managed to go to university. This shows that our students have a high motivation to make the most of their chance to a good future.

Our former students are organised in an "Alumni-club" and they support the new students. We are very happy about that.

Apart from the good news we also have to tell that in all those years we had to send away 7% of the new students because of bad behaviour.

Bonface

Bonface Odoyo started the study Bachelor of Arts in university at the end of Februar. We wish him all the success he needs.

Last January 7 new students started secondary school AGAI. Four girl and three boys.

Stanley

Because a sponsor gave us extra money, we were able to give all students a blanket, so they can keep warm during the night.

Several times a year we organise a meeting for all the sponsored students at that time.

They all have a beadge now to show that they belong to our group and that their schoolfee was paid in time.

This is the group of AGAI secondary at this moment in form 1, 2, 3 and 4.

The daughter of our former student Kevince and his wife Irene is doing very well.

She is named after Marijke Rieks and is called Martina.

**Kindergarten**

Because a sponsor gave us extra money. We were able to organise a schooltrip for the little children and their teachers to the museum in Kisumu.

Most of them had never been in a car or a van, so it was quite a new experience for them.

The schooltrip was a big succes and the children were very excited and happy and couldn't stop talking about it..

**We wish you all a nice start of the spring.**
